

Jennifer Huntsman

Partner

222 South Main Street, Suite 2200, Salt Lake City, UT 84101

P 801.799.5904

jshuntsman@hollandhart.com

Jennifer provides clients with sound counsel on a broad spectrum of environmental matters across a variety of transaction types involving renewable energy projects, Brownfields redevelopment, real property acquisitions and leasing, mergers and acquisitions, and divestitures and financings. Jennifer also represents clients in complex environmental and real estate matters, including CERCLA litigation and land use disputes.

Minimizing Environmental Liabilities: Clients benefit from Jennifer's experience assisting clients with remediating and redeveloping contaminated properties, evaluating properties and companies for potential environmental liabilities, and developing strategies to limit environmental liabilities associated with real property and corporate acquisitions.

Commercial & Energy Project Development: Jennifer guides clients through critical environmental and permitting aspects of project development for renewable energy, commercial real estate, mining, and oil and gas project development.

Environmental Compliance Advisor: Jennifer is experienced with various environmental laws and regulations, particularly the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA); the Resource Conservation and Recovery Act; and the Clean Water Act. Jennifer has experience negotiating agreements and settlements with state and Federal regulatory agencies and private parties.

Experienced Litigator: Jennifer has represented clients in a variety of industries, including real estate, energy, construction, and finance. Clients benefit from her efficient approach to dispute resolution.

Prior to joining Holland & Hart, Jennifer was an associate at Chapman and Cutler LLP, a judicial clerk for Associate Presiding Judge J. Frederic Voros of the Utah Court of Appeals, and a judicial extern for Judge Dale A. Kimball of the U.S. District Court for the District of Utah.

CLIENT RESULTS

Environmental Law and Project Development

Guided developer of 250 megawatt wind energy project in New Mexico traversing three counties through negotiation of environmental and permitting provisions of transaction documents, permitting and environmental planning and due diligence, and strategies to minimize environmental liability.

Represented a real estate development company in negotiating and implementing an administrative settlement agreement concerning the remediation of a property impacted by historic mining activities.

Advised a mining company in the development of a strategy to remediate a uranium mill and assisted in the drafting and negotiation of an administrative settlement agreement regarding remediation of contaminated groundwater aquifers.

Consulted with the second largest operator of self-storage facilities in the United States regarding the environmental condition and acquisition of properties throughout the western United States.

Drafted environmental lending policies for a major Chicago-based regional bank with 650 branches.

Reviewed Phase I Environmental Site Assessments for dozens of service stations located in California, Colorado, Nevada, Oregon, and Washington that were to serve as collateral in a loan transaction.

Litigation

Defending potentially responsible party (PRP) against CERCLA claims by U.S. Environmental Protection Agency arising from remediation of former mining property.

Represented two oil companies and a municipality in an \$18 million contract dispute in federal district court arising remediation of a canal containing contaminated sediment in Salt Lake City, Utah.

Defended against malpractice claim in \$300 million dispute among former business partners.
