Ying is an experienced and trusted advisor to energy and resources clients, guiding them through project development and general corporate matters.

She counsels energy clients through every stage of renewable energy project development, specializing in drafting and negotiating project and revenue agreements for solar, wind, battery storage, and biofuel assets. Leveraging her legal expertise and technical understanding, she tailors her advice to help clients achieve their business objectives. With extensive experience in the wood pellets and biomass industry, she is a valuable resource for clients looking to harness biomass for biodiesel, renewable biofuels, and sustainable aviation fuels.

Before joining Holland & Hart, Ying worked in house at a renewable energy company and served as an associate at two Am Law 100 firms in Washington, DC and Texas.
